EXPERIENCE

Internship
During the summer, I completed a 3-month internship or program at my high school focused on system administration and network configuration.

Web Development
I have developed simple and interactive e-commerce websites as well as personal portfolio websites by using internet programming languages such as HTML, CSS, JavaScript, and PHP.

System Analysis and Development (SAD)
Within a 3-day period, I developed an e-commerce website and product landing page using the Figma design tool.

Software Development:
Full-stack web development using **React**, **Angular**, **MERN**, **Laravel.**
I have learnt PHP, Js, C++, C#, Java, Python, SQL to empower my web development skills and to create wide job opportunity in the future.

Human Computer Interaction (HCI)
I excelled in the Human-Computer Interaction course and can create interactive features for websites and mobile apps.
